SUMMARY

Product Analyst in JPMorgan Chase's Innovation Development Program with hands-on experience across the product lifecycle, from discovery and requirements to prototyping, delivery, and production support. Partners with lending stakeholders, Design, and Technology to turn banker needs into AI-enabled tools. Led a 10-person hackathon team from problem framing to demo. B.S. in Business Analytics & Information Technology; skilled in Agile, Jira, Figma, SQL, and Python.

PROFESSIONAL EXPERIENCE

JPMorgan Chase & Co. **New York, NY**

Product Analyst, Innovation Development Program *Aug 2025 – Present*

Product – CRE Lending *Dec 2025 – Present*

- Translate banker and stakeholder requests into prioritized requirements and Jira user stories, partnering with Technology and Design through backlog grooming and testing in an Agile team
- Drove discovery and rapid prototyping of AI tools that save bankers time and drive new business, using Copilot and LLM agents and iterating each version through stakeholder demos and feedback
- Partner with senior executives and Strategy to shape a new Syndicated Lending workstream, contributing to early-stage discovery, problem definition, and product strategy
- Own production support for user issues and questions, and ensure AI features meet firmwide AI safeguards

Product – C&SI Lending *Aug 2025 – Dec 2025*

- Completed a product incubator covering the full product lifecycle: discovery, problem framing, prioritization, and delivery
- Co-built a product with 4 fellow analysts and drove its integration into the workflow of the C&SI Lending team, which supports bankers serving corporate clients
- Contributed to C&SI Lending product initiatives, helping move process improvements forward

Summer Analyst, Corporate Analyst Development Program | Newark, DE *Jun 2024 – Aug 2024*

- Supported risk and controls reviews in Asset & Wealth Management, partnering with senior team members on compliance and regulatory standards
- Delivered an enhancement to the risk review product platform and demoed it to the Operations team

Positive Impact **Cranbury, NJ**

Marketing Campaign Ambassador *Oct 2023 – Jun 2024*

- Engaged 200+ attendees per event for clients including RWJBarnabas Health, gathering direct customer feedback on needs and brand perception
- Tailored messaging to each audience and answered questions to create a positive customer experience

CVS Health **Bordentown, NJ**

Management Intern *Jul 2023 – Aug 2023*

- Coordinated cross-functional store teams, aligning communication and priorities to meet operational goals
- Tracked performance metrics to identify gaps and implemented process improvements that raised efficiency and service quality
- Diagnosed root causes of operational issues and resolved them before they affected customers

New China Chinese Restaurant **Burlington, NJ**

Assistant Store Manager *Jan 2019 – Sep 2022*

- Managed daily payments and reconciliation and resolved customer issues directly, building loyalty and repeat business

PROJECTS & LEADERSHIP

Momentum – AI Commitment-Tracking Prototype | JPMorgan Chase internal hackathon **Jun 2026**

- As product owner, led a cross-functional team of 10 to define and prototype an AI tool that keeps commitments from getting lost amid meetings and competing priorities
- Framed the user problem, scoped the concept, and shaped the narrative from problem statement to demo using mock data

GrowingED – OwlHack Winner, Best Use of Auth0 | Temple University **Sep 2023**

- Co-defined the product vision for an educational platform matching mentees with mentors in an inclusive learning environment
- Scoped MVP features and shipped a working website within the hackathon timeline, integrating Auth0 for secure sign-in

EDUCATION

Rutgers Business School – Rutgers University **New Brunswick, NJ**

B.S. Business Analytics & Information Technology, Concentration in Professional Selling *Dec 2024*

- GPA: 3.78/4.00 | Dean's List (all semesters) | Road to Supply Chain Leadership Program
- Relevant Coursework: Management Information Systems, Business Programming, Operations Management, Statistics, Professional Selling, Sales Management
